Bootcamp Starting

First of all, thank you Espire team for giving me this opportunity. In the first week, we enjoy some of the games fun activities, and much more to comfort all of us because we were all far from our homes that were the most amazing time. I had started my training with great enthusiasm and it was a new technology for me so the first few days I was like this is tough then afterward I practiced and continuously studied the content that's how I got it. Our trainer was incredibly helpful and always willing to respond to our inquiries. Working with him was a terrific experience overall. The trainer gave us the assignments, which we completed by staying up late till one in the morning, although some of them need our attention because they weren't functioning properly. We were only sleeping for five hours and then had to return to the workplace at nine-thirty. This forced me to push myself to the limit and the process lasted for three to four days since we had to finish the assignment, turn it into the trainer, and learn the daily material.

SME Connect Experience

Then we have to show our work to our SME (Subject Matter Expert) and then he will raise the question from our assignment and then he tells us how we have to study to get this done. Then we have our manager connect then he asks about our weekly training program and how it's going on then he tells us how we have to do the work in the program in which we are.

Manager Connect Experience

We have connected with our manager he asks us about our training and he makes sure that we are on track he also asks that we are all filling our timesheets properly and he also told us that if there is anything we need help with on he will be always there.

Soft Skill Test Experience

Then we have the soft skill test which was on behavior and ethics then we get feedback on our test then Lipi ma'am told us which area we have to improve on and things that we have to take care of in the office. Mam makes sure that we all are on the same page.

Deepti Mam Connect Experience

In between we connected with Deepti ma'am she came to the training room and then she asks about us and how we all are doing and make sure that everything is in order. It was a great experience with her which we all liked.

One day it was raining heavily then mam took me and two others and dropped us at to our destination.

That was a sweet gesture from the mam which I will remember.

All this Bootcamp was a great learning experience for me which will stay with me for my life.
